

**Dear Potential Arlington County Fair Food Vendor:**

Thank you for your interest in participating in the 48<sup>th</sup> annual Arlington County Fair! Each year, dozens of interested food vendors reach out to the fair to learn about vending opportunities. Fair management strives to create a dynamic and diverse food vendor row that represents the best of Arlington and incorporates the many culinary offerings that are thought of as “traditional” fair food.

Note that tented food vendors will be set up in the parking lot off 2nd St S next to the tennis courts throughout the duration of the Fair (Aug. 14-18). Participating food trucks will be located along the sidewalk at the lower synthetic turf field.

In addition to providing an excellent experience for our attendees, the fair also prides itself on being “green.” For years, the fair has worked with event partners to recycle bottles, cans, paper, cardboard, and food vendor grease; encouraged visitors to bike or walk to the event; set up a water bottle fill station; as well as other eco-friendly practices. Below is information about our efforts to extend our eco-friendly practices at the Fair and how it relates to your use of certain products. Please be sure to review this information thoroughly to ensure that you are in compliance.

- **Composting:** Compost bins will be placed throughout the fairgrounds and monitored by Arlington County staff. These bins will be located near the food vendor booths -- please be sure to dump any leftover food items, including excess food that isn't sold, peels, rinds, bones, etc. in these bins. Please see the attached document for more information on the specific items that are compostable.
- **Straws:** Single-use plastic straws will not be permitted. Vendors must use reusable straws (i.e. refillable lemonade cups with built in straws), paper straws, or utilize cups that do not need straws.
- **Condiment Packets:** Single-use condiment packets will also not be permitted at this year's event. Vendors must use bulk condiments and paper containers that can be composted.

- **Styrofoam:** Styrofoam items such as cups, plates and clamshells have not been permitted at the event for the past several years. Paper or plant-based materials should be used instead.
- **Cutlery:** While plant-based cutlery is preferred, vendors may continue to use plastic cutlery as needed.
- **Recycling:** Vendors must recycle paper, cardboard, glass, aluminum and plastic materials in the on-site recycle containers.

While the Arlington County Fair does not have a preferred vendor for food service materials, you may consider researching these companies:

- Aardvark Straws: <https://www.aardvarkstraws.com/>
- Eco Products: [www.ecoproducts.com](http://www.ecoproducts.com)
- Greenstaurant: [www.greenstaurant.com](http://www.greenstaurant.com)
- GreenGood USA: [www.greengood.com](http://www.greengood.com)

Thank you again for your interest in participating in the 2024 Arlington County Fair. Please be sure to review all the information in the vendor packet very carefully. Should you have any questions about the vendor application or about the fair in general, please contact [food@arlingtoncountyfair.us](mailto:food@arlingtoncountyfair.us).

Best wishes for a successful 2024 fair season!

Sincerely,

Arlington County Fair Board
